If you disagree with any of the following information, please respond to Workers' Compensation Employer Services in writing within **15 days** of the date of this notice. Be sure to include the nature of your disagreement and relevant information for the Division to reconsider. If the Division cannot informally resolve the matter, a final determination will be issued at which time you may request and are entitled to a hearing.

### 2019 EXPERIENCE MODIFICATION RATING (EMR) NOTICE

Your Experience Modification Rating (EMR) factor for the rating year has been calculated as shown below. Your EMR factor is based on a three-year experience period which is 01/01/2015 to 01/01/2018 for private entities, and 07/01/2014 to 07/01/2017 for public entities. If you have less than one full year of premium obligation during the experience rating period, your EMR will be equal to a modification of one. If you have greater than one full year of premium obligation during the experience rating period, but less than three full years of premium obligation, the actual premium obligation will be based on your actual experience as recorded by the Division in the quarterly or monthly reports in the year. Payroll, premium, and loss information from this period are used in this calculation and include data from any acquired or merged entities.

**2019 EMR Factor = 0.7500**
